

# Testimonials

Rick Marini, Tickle Co-Founder and CFO

“Steven worked with us on three revenue-related consulting projects over 18 months. We liked the work, asked him to join the exec team and sold the company to Monster for \$100 million a few years later.”

Derek Dukes, Sr. Product Mgr & Employee #6 at Yahoo!

“Steven is an O.G. in the world of digital media. He was directly involved in some of Yahoo!'s largest News deals and conceived & ran our Product Innovation Advisory Council.”

Tommy Dang, MAGE CEO

“As a 1st time CEO with a product development and engineering background, we knew how to build but had a lot to learn about pricing, sales, marketing, and partnerships. Thank goodness we found Steven. He dug deep into our business, did ultra in-depth research on our customers and audience, and then helped conceive and mold our business strategies. He gave us an actionable go-to-market roadmap that will be helpful as we continue to execute and hire in those areas.”
